Computational Neuroscience
Berlin**

BCCN Berlin Alumni Network

Stay in contact with us!

Keep contact with us and join the BCCN Berlin alumni network. Whether you graduated in our Master or PhD Program, joined one of our labs as a PhD student or postdoc, or were a group leader - it doesn't matter. Everybody is welcome - we would love to have you in our network.

As an BCCN Berlin alumni you will be informed about our events and news around the BCCN Berlin, you will be invited to our alumni workshops, and you will have access to the contact of all alumni network members.

Share your experiences during your time at the BCCN Berlin and your later experiences with our actual students. Benefit from exchanging experiences with other BCCN Berlin alumni. Join our retreats, offer internships, or jobs for our actual students and graduates.

Or be one of our ALUMNI MENTORS: Share your experiences about your studies and/or your entry into your scientific career or the job market in direct interaction with one of our students. You will benefit from this interaction by learning more about yourself, your competencies and strengths and invest in the next generation.
